Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 January 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Applicant's response filed on 01/02/2003 has been fully considered. The second paragraph of 35 U.S.C 112 and 35 U.S.C. 103(a) rejections have been withdrawn in view of applicant's amendments and comments.
2. Claims 21, 24 and 30 are amended, claims 39 and 40 are added, and thus claims 21-40 are pending.

Claim Rejections - 35 USC § 102

3. Claims 33-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Schmidle et al. (US 4,273,819).

Schmidle discloses a floor covering having a backing sheet, foamable base having a chemically embossed portion, a layer having a printing ink composition, a wear layer having a mechanically embossed portion and a portion that has not been mechanically embossed, and a paper top layer in the order thereof (col. 13 and 14). The chemical embossed depth is greater than the mechanical embossed depth (see Fig. 1 and 2). The chemically embossed portion is free from mechanical embossment (see Fig. 1 and 2). The wear layer comprises polyvinyl chloride, and is free from compounds that would lead to chemical embossing (col. 6, line 25). The claimed top coat is equivalent to the paper top layer, the claimed strengthening layer is equivalent to the backing sheet, and the claimed design layer is equivalent to the layer having the printing ink composition. Portions of the layer having the printing ink composition comprise no retarders. The printing ink composition is used for making the chemical

embossment, in which portions of the ink composition contain retarder and other portions of the ink composition contain no retarders in order to provide the chemical embossment effect.

Response to Arguments

4. Applicant disagrees with the above rejection. Applicant's argument is based on that Schmidle does not teach a product on which mechanical embossing is performed on a cured wear layer or after chemical embossing. This argument is not persuasive for the following reason. The Examiner agrees that Schmidle does not teach a product on which mechanical embossing is performed on a cured wear layer or after chemical embossing, however, claims 33-38 do not expressly recite a product on which mechanical embossing is performed on a cured wear layer or after chemical embossing. Therefore, claims 33-38 stand rejected.

Allowable Subject Matter

5. Claims 21-32, 39 and 40 are allowed. Schmidle neither teaches nor suggest a product on which mechanical embossing is performed on a cured wear layer or after chemical embossing.

Miscellaneous

6. The PTO 1449 for the IDS submitted on 02/14/2001 was not included. Please provide a copy.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
